

To support you in your projects, **MODELEC** provides resources designed to simplify the selection, customization, ordering, and installation of our products.

On these pages, you will find **technical information** about our mechanisms, product codes for the **accessories** essential to the proper installation of our products, details about our smart home solutions, and an overview of the custom and engraving options we offer. All these elements help you design precise, well-managed installations tailored to every need.

Because every project is **unique**, **MODELEC** provides dedicated **digital tools** to guide the design process and make it easy for everyone to create a cohesive system suited to both its intended use and its location.

■ THE DETAIL THAT MAKES ALL THE DIFFERENCE

To ensure a perfect match for **all the electrical equipment** in your project, **MODELEC** offers a custom design service.

Regardless of which brand of equipment, thermostats, home automation controls, or other interfaces you use, our teams can **design coverings that blend** seamlessly with your **MODELEC plates and finishes**.

We adapt shapes, **cutouts, and finishes** to integrate each mechanism into a cohesive, aesthetically pleasing whole.

Each project is **carefully studied** to meet the requirements of **architects and high-end residential or hotel projects**.

■ OUR PERSONALISATION OPTIONS

- Thermostat covers
- Home automation system integration
- Plates adapted to access control readers
- Intercom covers and custom controls
- Multibrand compatibility
- Custom cutouts and configurations

Our consulting and engineering department can assist you with:

Technical studies, feasibility assessments, selection of finishes, and custom manufacturing

■ A DISTINCTIVE STYLE

MODELEC offers an engraving service to personalise your plates or integrate specific signages to your project.

Logos, text, or custom pictograms: you can design your engravings with precision directly through our configurator. View your customisation, approve it, and then simply add it to your project.

Produced in our **workshop in France**, our engravings **guarantee precise, elegant, and durable results**. They can be achieved on the vast majority of plates from the **M, Confidence, Empreinte, and Fascination collections** (except for a few technical exceptions), as well as on full-material flat buttons.

For practical or aesthetic use, engraving allows you to clearly identify your controls while providing an elegant and durable finish that integrates perfectly with your **MODELEC** equipment.

OPEN HOME AUTOMATION	384

■ WHAT IS HOME AUTOMATION?

■ CENTRALIZE

Home automation is defined as the methods used to connect various smart and interconnected electronic systems within a room, house, or any other building (for comfort, security, energy, etc.) through a single central control.

■ AUTOMATE

For a more autonomous home, control all your different devices, even remotely: manage lighting, blinds, energy, and more with a single button.

■ CUSTOMIZE

Reconfigure the functions of your devices as you wish, without complex integration: create a home that reflects your personal style with custom atmospheres.

DOMOTIQUE INTEGRATED

Confidence collection

This solution features a MODELEC mechanism with built-in native KNX support, ensuring simplified installation thanks to Hager's KNX easy software.

CONFIDENCE COLLECTION
412. BRUSHED STEEL

DOMOTIQUE SEMI-INTEGRATED

Confidence, M, Fascination, Empreintes and Iris Horizon collections

This solution features a MODELEC control mechanisms compatible with extra-low voltage, including toggles or flat buttons, pre-wired to a Theben input module. This solution is also available pre-wired but without a pre-configured input module, allowing you to install the module of your choice.

CONFIDENCE COLLECTION
410. BRUSHED BRASS

DOMOTIQUE BLUETOOTH

Confidence and M collections

This solution allows you to control lighting or window/door openings directly from a smartphone or tablet using a Bluetooth connection or simply by flipping a switch. Easy to install and use thanks to the HagerMood app, and does not require an internet connection.

COLLECTION M
514. GUN METAL

OPEN HOME AUTOMATION

All MODELEC collections

This solution applies to all MODELEC collections and involves wiring the input module of your choice to our push-button switches or toggles.

IRIS BY MODELEC COLLECTION
361. WHITE PORCELAIN

INTEGRATED HOME AUTOMATION

Available for the Confidence collection.

The **MODELEC** integrated solution offers **high-end home** automation directly built into your wall-mounted controls. Each mechanism naturally incorporates **KNX technology**, the global standard for professional home automation systems.

Designed as a **turnkey solution**, it simplifies installation and configuration thanks to **Hager's KNX Easy** software. It allows you to centralize and control numerous home functions: **lighting, dimming, roller shutters, scenes, or comfort management**.

Each control can include up to **six functions** on a single plate, with or without an indicator light (LED or infrared). Beyond standard controls (ON/OFF or dimming), it can also integrate presence **detectors** or a **KNX-connected thermostat**, which are perfectly matched to **MODELEC** push-buttons.

This solution combines **design, performance, and scalability** to create a **discreet, elegant home automation system that is seamlessly integrated** into the interior architecture

THE INTEGRATED SOLUTION BENEFITS

- Native **KNX technology** (international standard)
- **Reliable and scalable** installation
- Up to **6 controls on a single plate**
- **Seamlessly integrated MODELEC design**
- Compatible with **lighting, shutters, heating, and scenes**
- Simplified configuration with **KNX Easy**

SEMI-INTEGRATED HOME AUTOMATION WITH FLAT BUTTONS

Available in Confidence, M, Fascination, Empreintes and Iris Horizon collections.

Semi-integrated home automation makes it easy to add **smart features** to a **traditional electrical system**. With connected modules installed in the electrical equipment or panel, you can control various home systems : **lighting, roller shutters, and heating**, either individually or as part of pre-set scenarios, while keeping your **MODELEC-designed** wall-mounted controls.

Featuring flat buttons, It features a **MODELEC** mechanism equipped with **full-material buttons compatible with extra-low voltage**. These mechanisms are available in two versions: with a **pre-wired THEBEN input module (including the KNX protocol, the industry standard in home automation)**, or to be paired with the **module of your choice**. They are easy to install and connect to your electrical system.

Example : cover plate + mechanism

M COLLECTION
523. MATT BLUE ALUMINIUM

Mechanism to be combined with the module of your choice.

FEATURES

1 to 5 flat square buttons

Buttons in **whole material** (brass, aluminium) with ou without LED.

Button dimensions: **12,5x12,5 mm**

THE BENEFITS OF THE SEMI-INTEGRATED SOLUTION WITH FLAT BUTTONS OR REINFORCED TOGGLES

This solution offers great **installation flexibility** and is an excellent option for modernizing an existing **home or setting** up a system that can be **upgraded in the future**. Up to five controls per mechanism (for a total of **15 functions**) can be configured, with the option to add indicator lights (**5V LEDs**). The plates and flat buttons can also be **engraved**, and our buttons can be combined with other functions on a multi-function plate.

MODELEC ▪ HOME AUTOMATION

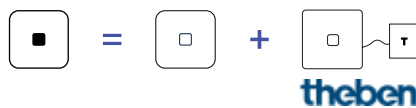

THE SEMI-INTEGRATED SOLUTION WITH REINFORCED TOGGLES

Available in Confidence, Fascination, Iris Horizon collections.

It features a **MODELEC** mechanism equipped with brass toggles compatible with extra-low voltage. This mechanism is available with a pre-wired **THEBEN input module**.

This mechanism is easy to install and connect to your electrical system. It uses the **KNX** protocol, the industry standard in home automation.

Example : cover plate + mechanism

CONFIDENCE COLLECTION
410. BRUSHED BRASS

ON/OFF SWITCH

DIMMING

HOME AUTOMATION SCENARIO

MANAGING OPENINGS

THE DOMOTIQUE BLUETOOTH

Available in M and Confidence collections.

The **Bluetooth** solution makes it easy to control certain home equipment directly from a **smartphone or tablet**. Control can be done locally via the **dedicated app**, or simply by **pressing** the switch.

This solution includes a **built-in Bluetooth mechanism**, simplifying installation without the need for additional modules or gateways. It also requires no permanent internet connection.

You can choose between two control mechanisms: **a dimmer or a roller shutter control**.

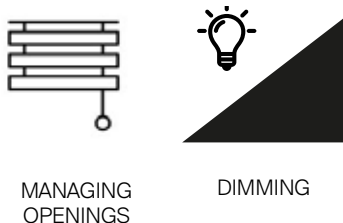

The system is very intuitive to use: programming and **creating scenarios** are done directly through the **Hager Mood app**, allowing, for example, to manage **lighting, create lighting scenes**, or control multiple devices from a single mobile device.

Ideal for **residential projects** and for those new to home automation, the **Bluetooth solution** combines **ease of installation, convenience, and flexibility**. It is available in the **M and Confidence collections**.

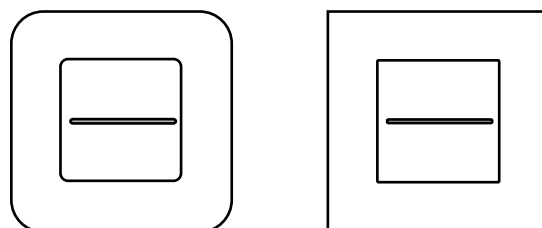

THE BLUETOOTH SOLUTION BENEFITS

- **Quick installation** without complex infrastructure
- Control using a **smartphone or tablet**
- Local operation **without an internet connection**
- **Creation of lighting scenes**
- Retention of **traditional wall switches**

APPLICATIONS

OPEN HOME AUTOMATION

Available in all Modelec collections.

This solution allows the use of all **MODELEC** controls : **toggles, push buttons, or flat buttons**; in push-button mode, and enables wiring to the input module of choice.

With a **wide range of designs** and **nine collections available**, the open solution adapts to any interior style. It also serves as an ideal foundation for future **upgrades to connected or home automation solutions**, while remaining **simple and intuitive to use from day one**.

Available in all our collections, the open solution prioritizes **simplicity, installation flexibility, and durability**.

THE OPEN HOME AUTOMATION BENEFITS

- Simple, **traditional installation**
- Extensive **configuration flexibility**
- Compatible with **all types of installations**
- Prepared for **future upgrades**
- **Reliability** of an offline system

MODELEC ■ TECHNICAL INFORMATION

■ FLUSHMOUNT BOXES FOR SINGLE COVER PLATES :

Our mechanisms and cover plates are mounted in flush-mount boxes Ø67-68mm and 50mm deep.

Example of compatible references:

SINGLE-GANG COVER PLATE	- IMT35032	- LEG 0 800 31	- LEG 0 800 51	- BLM 680500	- LEG 0 801 51	- LEX72049012
TWO-GANG COVER PLATE		- LEG0 800 32	- LEG 0 800 52	- BLM 682715		- LEX82233614
THREE-GANG COVER PLATE		- LEG0 800 33	- LEG 0 800 53	- BLM 683715		- LEX82233614

FLUSHMOUNT BOXES FOR NARROW AND LONG NARROW COVER PLATES :

Our mechanisms and cover plates are mounted in flush-mount boxes Ø32mm and 40 or 50mm deep.

- LEGRAND / BATIBOX : 0 800 40
(40 mm deep)

- ARD 432002
(50mm deep)

■ FLUSHMOUNT BOXES FOR 3 MODULES COVER PLATES (ITALIAN FORMAT 503):

Our mechanisms and plates are mounted into standard 3 module flush-mount boxes 50 mm deep.

Example of compatible references:

- LEGRAND / BTICINO : BTPB503N

- GEWISS : GW24403PM
(shaver socket)

■ CAST-IN BOX

Our mechanisms and cover plates are compatible with the cast-in box (Ø64 mm, 58 mm deep).
The screws must be purchased separately from the box.

- LEGRAND / BATIBOX : LEG 0 819 41

IMPORTANT

Confidence Collection with screws

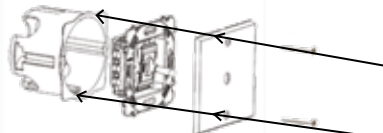

For single flush-mount boxes, place the fixing clamps horizontally, and the posts holding the cover plate fixing screws vertically.

Double, triple and quadruple boxes :

Spacing 71 mm between each mechanism

Fixing the flush-mounted box horizontally

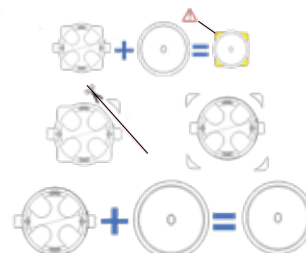

Fixing of the cover plate vertically

IMPORTANT

Iris by MODELEC Collection

Cut off the lugs on the flush-mount box or choose the reference down below:

SCHNEIDER

■ REINFORCED MECHANISMS, SCREW CONNECTION

▪ USING

Reinforced Mechanisms are compatible and recommended for Confidence and Fascination Collections in Brass. They are suitable for use in places to intensive use and for all high-end projects.

▪ ADVANTAGES

- Ultra resistant mechanisms
- Compliant with the installation standard without connection to the earth
- Allow very wide composition possibilities
- Additional functions available
- Addition of LED possible
- Three toggle and PUSH button finishes are available

Steel

Black

Gilt

▪ FUNCTIONS

- Toggle, single or double: Two-way, Push-toggle
- 1 roller shutter toggle 3 positions ON/OFF/ON
- 1 roller shutter toggle 3 positions MOM/OFF/MOM (Push-toggle)
- PUSH round button
- Reading and SPOT lights
- Door bells
- LED lights (available in 220V, 12-48V and 5-12V)

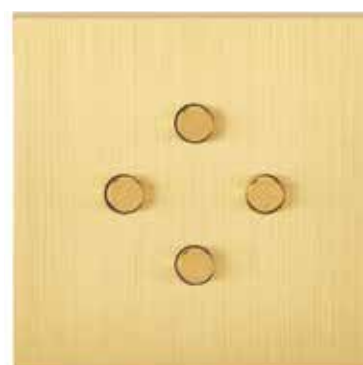

▪ RENDERING

Toggle

PUSH-round button

▪ EXAMPLE

Installation until 9 toggles or PUSH round buttons on a double vertical cover plate.

■ STANDARD MECHANISMS, AUTOMATIC CONNECTION

▪ USING

Standard mechanisms are suitable for housing using.

▪ ADVANTAGES

- Compatible with all our Collections
- Quiet mechanisms
- Quick and easy installation thanks to the automatic connection
- Compliant with the installation standard without connection to the earth (except socket 2P+E)
- Five flanged toggles finishes are available

White

Steel

Black

Matt Brass

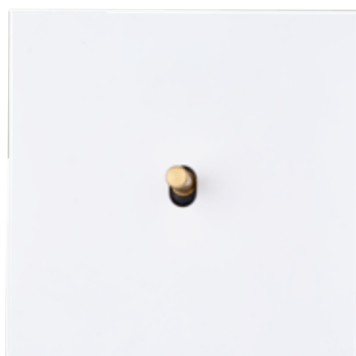

Shiny Brass

For the Désir collection, a new straight toggle is available in the same finishes. (See p.289)

▪ FUNCTIONS

- DUO mechanism, single or double: new function for toggle mechanisms that allows, with a same reference, to switch from a Two-way to a Push-toggle with a simple pressure (technical datasheet available on our website)
- 2 roller shutter Two-way toggles
- 2 roller shutter Push-toggles
- Sockets: 2P+E, Schuko, media (HDMI, TV, USB, RJ45, etc.)
- Other: Shutters, motion detector, card reader, cable outlet, dimmer, Bluetooth dimmer, Bluetooth shutter, low level lighting, thermostat...

▪ RENDERING

▪ EXAMPLE

Installation until 4 toggles on a double vertical cover plate.

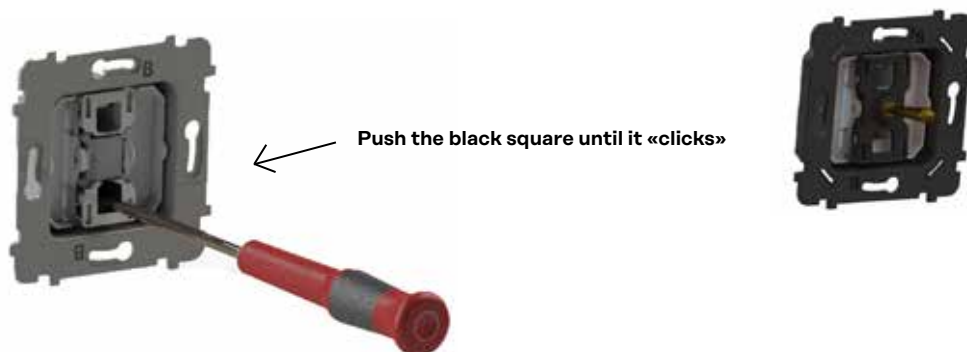

MODELEC ■ TECHNICAL INFORMATION

■ LES MÉCANISMES FONCTION DUO

The **DUO's function** allows the possibility to switch from a two-way function to a push-button function with a single press.

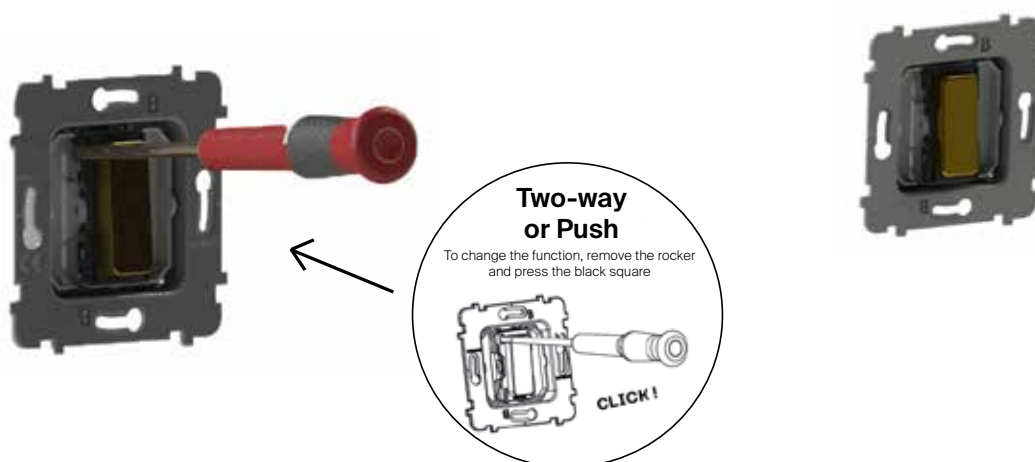

(example : screwdriver)

Available for the **confidence, hitera, désir, iris and karo collections.**

Before any intervention, be sure to cut the power, to use compatible boxes (example : 50mm deep - Diameter 67 ou 68mm for single-gang cover plate).

The **DUO function** for the **M collection's** buttons is delivered unmounted. To access the "DUO" function described above, simply clip them on after selecting the function.

■ MAINTENANCE

To clean your MODELEC equipment, use a soft cloth without products.

■ MECHANISMS FIXATION

MODELEC switchgear only has a screw fixing method on the flushMounted boxes.

Our mechanisms are not equipped with claws.

Standard NF C15-100 amendment 5.

Fixing control gear for lighting and socket outlet, Art. 10.1.3.9:

«Claw fixing of all equipment in the flushMounted boxes is prohibited.

However, during renovation if the existing boxes cannot be replaced in order to accommodate a fixing of the screw devices, it is permitted to occasionally use claw devices."

BUILD YOUR PROJECT

MODELEC provides three digital tools designed to help you build your project. Choose your collection, the plate finish and toggles, and view the result in augmented reality. List all your needs and get your own detailed quote.

MODELEC ■ OUR CONFIGURATOR

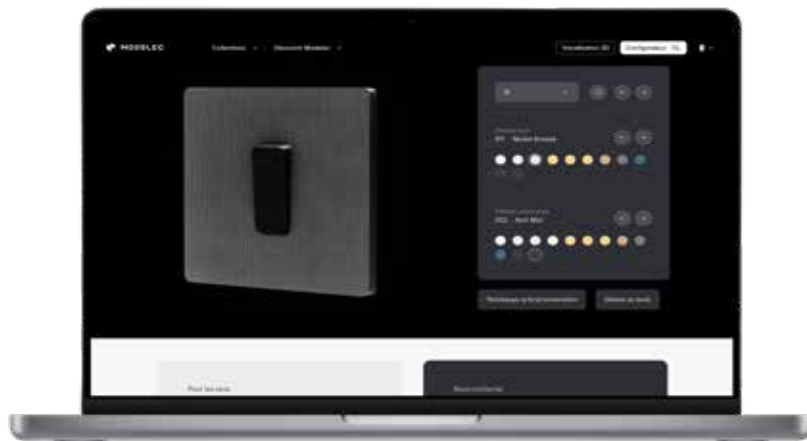

■ CONFIGURE YOUR ELECTRICAL EQUIPMENT IN JUST A FEW CLICKS

Our **online configurator** has been specifically designed to help you **easily create** your electrical setup according to your needs. In just 6 steps, **customize** your products, **choose your finishes**, and **build your project** with complete simplicity. Access the tool at **config.modelec.com**, **instantly get a free, no-obligation quote**, then finalize your project with our network of premium retailers.

■ VISUALIZE OUR COLLECTIONS IN YOUR SPACES

Explore **all the finishes in our collections** using **our 3D visualization tool**. Compare materials, **look at every detail**, and generate your design sheet in just a few clicks.

You can also use augmented reality on your smartphone to visualize our switches directly in your home and refine your finish choices before installation.
